EXPERIENCE

Clawlye

Full Stack Developer Intern

Oct 2024 – Apr 2025

Remote

- Developed a scalable e-commerce platform using **React.js**, **Node.js**, **Express.js**, and **MongoDB**, improving site performance and reducing bounce rate by approximately 20%.
- Designed responsive, user-centric UIs with **Tailwind CSS** and **React Hooks** to boost engagement and customer retention.

YHills EdTech Pvt. Ltd.

Full Stack Web Development Intern

Jun 2024 – Aug 2024

Remote

- Delivered **5+ full-stack web applications**, including e-commerce and pizza store platforms, using **React.js**, **Node.js**, **Express.js**, and **MongoDB**, achieving 30% faster load times.
- Engineered mobile-first, responsive interfaces with **Tailwind CSS** and **React Hooks** for optimal cross-device performance.

PROJECTS

Job Skill Gap Analysis Tool

Dec 2024

- Built a resume analysis tool processing **100+ resumes** for **ATS compatibility**, matching job descriptions and identifying skill gaps using the **Google AI API** with optimized prompts for 20% better accuracy.
- Delivered actionable insights like acceptance probability, company analysis, and career impact metrics, increasing user job offer chances by 50%.
- Constructed with the **MERN stack** and integrated **Stripe API** for secure transactions with a 98% success rate.

GenText AI Content Generator

Nov 2024

- Launched a GenText AI website using the **MERN stack** with **Google AI API** integration, reducing manual content creation efforts by 60%.
- Integrated **Stripe API** for seamless and secure payment processing, achieving 100% transaction reliability.
- Crafted an intuitive and visually appealing user interface for improved accessibility and user flow.

create-server-side-app

Oct 2024

- Published the **create-server-side-app npm package**, a CLI tool that automates backend project setup with a **Model-View-Controller (MVC)** architecture, saving setup time and used by 140+ developers.
- Enhanced productivity by introducing features like customizable project names, template-based setup, and a quick-start backend generator.
